SECRET DISEASES

By his plan

that has ever yet been presented to the world. By his plan, founded on observation made in the Hospitals of Europe and America, he will insure.

A CURE IN TWO DAYS.

No Mercury or Nauseous Drugs used.

Weakness, Loss of Organic Powers, Pains in the Loins, Disease of the Kidneys, Affections of the Head, Throat, Nose and Skin, Constitutional Debility, and all those horrid affections arising from a Certain Secret Habit of Youth, that solitary practice, more fatal to its victims than the song of the Syrens to the mariners of Ulysses—blighting their most brilliant hopes or anticipations, rendering Marriage, etc., impossible.

brilliant hopes or anticipations, rendering Marriage, etc., impossible.

A GURE WARRANTED, OR NO CHARGE.
Young Mer especially, who have become the victims of Solitary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence, or waked to cestacy the living lyre, may call with full considence.

MARRIAGE.

Married persons, or those contemplating marriage, being sware of physical weakness, should immediately consult Dr. J., and be restored to perfect health.

Office, No. 7 South Frederick street, Baltimore, Maryland, on the left hand side, going from Baltimore street, seven doors from the corner. Be particular in observing the name and number, or you will mistake the place.

DR. JOHNSTON,

Member of the Royal College of Surgeons, London, Graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the Hospitals of London, Paris, Philadelphia, and elsewhere, has effected some of the most astonishing cures that were ever known. Many troubled with ringing in the ears and head when asleep, great nervousness, being slarmed at saidon sounds, and bashfulness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.

TAKE PARTICULAR NOTICE.

d sometimes with derangement of mind, were cured immediately.

TAKE PARTICULAR NOTICE.

Dr. J. addresses all those who have injured themselves by private and improper indulgences, that secret and solitary habit, which ruin both body and mind, unfitting them for either business &r society.

These are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c., &c.

Mentally.—The fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion of Society, Self Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

Love of Solitude, Timidity, &c., are some of the evils produced.

NERVOUS DEBILITY.

Weakness of the system, Nervous Debility and premature decay generally arise from the destructive habit of youth, that solitary practice so fatal to the healthful existence of man, and it is the young who are most apt to become its Victims, from an ignorance of the dangers to which they subject themselves. Parents and Guardians are often misled with respect to the cause or source of disease in their sons and wards. Alas! how often do they ascribe to other causes the wasting of the frame, Palpitation of the Heart, Dyspepsia, Indigestion, derangement of the Nervous System, Cough, and Symptoms of Consumption: also those serious Mental effects, such as loss of Memory, Depression of Spirits, or peculiar fits of Melancholy, when the truth is, they have been caused by indulging in Pernicious but alluring practices, destructive to both Body and Mind. Thus are swept from existence thousands who might have been of use to their Country, a pleasure to their friends, and ornament to Society.

tions, destructive to both Body and Mind. Thus are swept from existence thousands who might have been of use to their Country, a pleasure to their friends, and ornaments to Society.

DR. JOHNSTON'S INVIGORATING REMEDY FOR ORGANIC WEAKNESS.

This grand and important Remedy has restored strength and vigor to thousands of the most debilitated individuals, many who had lost all hopes, and been abandoned to die By its complete invigoration of the Nervous System, the whole faculties become restored to their proper power and functions, and the fallen fabric of life is reised up to beauty, consistency and duration, upon the ruins of an emaciated and premature decline, to sound and pristine health. Oh, how happy have hundreds of misguided youths been made, who have been suddenly restored to health from the devastations of those terrific maladies which result from indiscretion! Such persons, before contemplating

MARRIAGE, should reflect that a sound mind and body are the most necessary requisites to promote connubial happiness. Indeed, without this, the journey through life becomes a weary pligrimage; the prospect hearly darkens to the view; the mind becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another becomes blighted with our own. Let no false delicacy prevent you, but apply immediately.

To STRANGERS.

The many thousands cured at this institution within the last ten years, and the numerous important Surgical Operations performed by Dr. J., witnessed by the Reporters of the papers and many other persons, notices of which have appeared again and again before the public, is a sufficient guaranty that the affileted will find a skilful and honorable physician.

Take NOTICE.

obysician.

It is with the greatest reluctance that Dr. Johnston per mits his card to appear before the public, deeming it unprocessional for a physician to advertise; but unless he did so, he afflicted, especially strangers, could not full to full into hands of those imprudent, boasting impostors—individthe hands of those imprudent, boasting impostors—individ-uals destitute of knowledge, name, and character—pediars, shoemakers, mechanics, &c., advertising themselves as phy-sicians; ignorant quacks, who keep you trifling month after month, as long as possible, and in despair leave you with ruined health to sigh over your galling disappointment. It is this motive alone that induces Dr. J. to advertise, for the alone our cure you. To those unacquainted with his reputation he deems it necessary to say, that his credentials or diploma-always hang in his Office.

Weakness of the Organs immediately cured, and full vigor restored.

PROSPECTUS OF THE COTTON PLANT,

UTHERN JOURNAL, PUBLISHED WEEKLY, TO ADVOCATE DIRECT TRADE, MANUPACTURES, AGRICULTURE, AND THE DEVEL-

water damental and

OPMENT OF SOUTHERN BESOURCES, BY C. G. BAYLOR.

WASHINGTON, D. C.

THE importance of such a journal as the above needs no exposition. The material and substantial interests of the South have been too long neglected. The "Corron Plant" is established to promote these interests, keeping entirely aloof from party or party politics. A complete foreign and domestic correspondence has been arranged. The best talent of the country will contribute to our columns, which will present a medium of general communication, correspondence, and information for the friends of the measures we advocate. The proper steps have been taken in Europea and America to lay the foundation of a direct foreign trade at the South, and to introduce our coarse manufactures into the continental European market. One object of the "Corron Plant" will be, as the organ of direct trade, to stimulate the South to carry out this important measure.

We call upon the Southern merchants generally to send us their husiness cards, that we may lay them before the country, to enable the friends of Southern comperce, manufactures, &c., to discriminate properly in their desire to promote Southern entarprise.

The importance of Washington City, as a point of location WASHINGTON, D. C.

unactures, &c., to discriminate properly in their desire to primote Southern entacprise.

The importance of Washington City, as a point of location for such a journal, especially in regard to opening foreign correspondence and promoting our foreign relations, is apparent. The opportunity of seeing here, also, members of Congress from severy district of the country, presents means of general co-operation not to be found elsewhere.

To the Cotton, Sugar, Rice, and Tobacco Planters, we look confidently for support: and to the friends of "Direct Trade" throughout the South we say, "show your faith by your works."

Trade" throughout the South we say, "show your faith by your works."

The regular issue of the "Corron Plant" will commence in June next. Advertisements are particularly requested to be forwarded early. Business letters addressed to C. G. Bayton, Washington City, D. C.

Correspondence from all interested in the cause we advocate is solicited, particularly as to the crop, as we wish to give correct information on a subject which is of so much importance to the Planter, and in representing which he has been so often injured.

Postmasters are requested to act as agents for us; and to all who approve our cause we look for good feeling, kindness, and support.

TERMS: Two dollars a year, in advance.

We, the undersigned, Senators and Representatives, cordially recommend the above journal to the confidence and support of the South.

AMERICAN TELEGRAPH.

NATURE'S SONG OF LOVE.

Oh! Nature's heavenly music Is floating on the air, On wind and stream and wavelet. From bud and floweret fair;

Soft o'er my heart it flingeth Its gushing melody, And evermore it singeth Its sweet song unto me!

The bubbling brooklet onward flows, And gushes forth in song, While murmuring breezes, floating by, The rippling notes prolong.

The warbling birds, with merry trill, A love-lay ever sing, The flowers from forth their fragrant lips A voiceless music fling.

The sportive winds sweep through the trees, And sing, with changing tones, Their soft and sweet and soothing strains, Mingled with plaintive moans.

The sea its lofty anthem rolls, And gloriously it sings, Righ music in its chime enfolds That, ever-changing, ringe.

The moon its silver melody O'er this fair world doth fling. And, in the dawn, their morning lay The stars together sing.

Oh! the bright lips of the flowers That bloom upon the sod, The birds that trill their loving notes Into the ear of God-The clear east wind that bringeth

The roaring of the sea, The soft north breeze that flingeth Its fragrance o'er the lea-All have a voice that singeth

A love-song, loud and free : From Naturo's heart it springeth, Our Father, up to Thee M-

Lynn, Massachusetts. [National Era

Sailors' Rights. The following remarks from the National Era

chant service-the worst, the naval. But the pay in our navy is in advance of that in the naval service of other countries. Hence, while American sailors are attracted to our merchant vessels, foreign sailors crowd our navy. An American who can command eighteen dollars in a merchantman, where he is sure to be well treated, can have no motive to engage on board a man-of-war, at twelve dollars, with a certain prospect of being treated

more like a brute than a man. "An increase of wages, from twelve to twenty dollars a month, would give to the navy the choice of the best seamen; attract to it Americans devoted to the honor of its flag; elevate the standard of seamanship and the character of the sailor: render discipline easy; and remove all pretexts for degrading punishments. Discharge from such service for bad conduct would be a punishment to be dreaded, not relief to be sought; and such discharges might be ventured upon without danger to the efficiency of the service, as the high was paid would always command substitutes.

· That is a most niggardly, villainous economy which drives American citizens from our navy, peoples it with desperadoes, and commits the keeping of our flag to foreigners. The proposed ncrease of wages would augment the aggregate pay of our seamen from sixty to eighty thousand iollars a year -- a small sum to pay for intelligence. patriotism, discipline, and efficiency in our navy and for the comtort and elevation of a class of men upon whom hereafter the country must depend to make good its resistance to foreign aggression, and its intervention in behalf of the law of nations. We pay a great deal more for the support of supernumerary officers, of no con-

ceivable use, without a murmur. "Give the sailors books, useful employments, comfortable quarters, respectful treatment, a fair chance of preferment, good wages, the benefit of court-martials in grave cases, abolish all vindictive and degrading punishments, and we shall hear no more complaint of insubordination and mutiny.

INTRODUCTION OF CHINESE INTO HAVANA .ate English papers state that a large importation of Chinese laborers into Havana has been esolved on, and an English house is said to have contracted for the importation of 8,000 into the sland, at a charge of 125 dollars per head. The laborers are to be apprenticed for eight ears; are to receive four dollars per month in the shape of remuneration; and, as far as we can earn, no stipulation is made about carrying them back, at the expense of the master or the importer, at the end of the term, if the Chinese desire it, as was stipulated by the British govrument in the case of the Coolies. The induce ment to the present experiment was the success t a similar one, four or five years ago, in Havana, where upwards of 500 Chinese were brought from Amoy, on the terms we have already men-tioned, and their docility and general good conduct have been such as to make a marked and most favorable impression on the Spanish planters. - Savannah News.

ROMAN CATHOLIC NATIONAL COUNCIL .- On the 9th day of May next, the National Roman Catholic Council will assemble at the Cathedral, in Baltimore, and will be composed of thirty-two ishops, (six of them archbishops.) Archbishop Kendrick will preside. Each bishop will be at tended by a clergyonan as theologian, making the council to consist of fifty-two members. Several hundred ecclesiastics will be in attendance, as well as a large concourse of persons to witness these interesting ceremonies, many of which will be public. This is the last general council to assemble in Baltimore for ten years, though here will be provincial councils in all the arch aishoprics every two years.

An ordinance for the suppression of cruelty to. ianos, accordeous, and flutes, and other offences not amenable to the criminal statutes, has been adopted by the town council of Buncombe. Sound eggs, them Buncombeians. David L. Dodge, an old New York importer,

died on Friday, aged 78 years. The American Tract Society, now one of the giants of the day, was formed in the parlor of Mr. Dodge. Tuesday last was the birth day of Louis Napo-

leon, when he was 44 years old. He was born the 20rh of April, 1808.
